EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald Reichman (Reg. No. 26,796) on 12/11/07.

The application has been amended as follows:

In claim 19, line 8, delete the terms --"paper items"-- and replace them with the term --"objects"--.

DETAILED ACTION

1. This action is responsive to papers filed on 11/15/07.

Response to Amendment

2. In response to applicant's amendment received on 11/15/07, all requested changes to the claims have been entered. Claim 26 has been added. Claims 4, 5 and 20-25 have been cancelled.

Allowable Subject Matter

3. Claims 1-3, 6-19 and 26 are allowed.

The following is an examiner's statement of reasons for allowance:

4. As to claims 1, 19 and 26, none of the prior art teach or fairly suggests "filtering out colors that are unnecessary to observe" or "filtering out light outside the certain range" and "filtering out sufficient light so that human forms are substantially invisible to the cameras", in combination with the other limitations of the claims. The combination of Meunier and Foster, already of record, disclose a system for monitoring objects at a plurality of locations using a plurality of cameras which capture a unique identifier on the objects and recording the objects location and the time it was sighted. However, neither Meunier nor Foster teach or fairly suggest that the camera filters out unnecessary colors or all but a certain range of light that is used by the unique identifier and that includes filtering out sufficient light so that human forms are substantially invisible to the cameras, as disclosed in the limitations of claims 1, 19 and 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 2003/0095186 to Aman et al. discloses invisible ink on tags for tracking an object.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aaron W. Carter whose telephone number is (571) 272-7445.
